

ABOUT THE AUTHOR

Philip Theunissen was born in South Africa in 1959. He completed a B Comm in 1982 at the Potchefstroom University. He then did a Hons. B. Comm. (1984) and M.Comm. (1986) in Business Economics at the University of South Africa. He completed his Ph. D. in Business Economics at the Potchefstroom University in 1998 with the thesis "Financial norms for a mixed farming enterprise in the Eastern Free State". He started his career in 1983 as an economist with the South African Agricultural Union but excepted a position as agricultural economist at Free State Co-operative four years later. He thereafter became financial manager for a farming company before starting his own management bureau for farmers in 1991. He is also involved in developing courses for financial record keeping, income tax and marketing for distance education. He was a tutor for Technicon South Africa. He is also a freelance journalist and has written numerous articles and columns for all the major agricultural magazines in South Africa. In 1993 he was awarded as agricultural journalist of the year in South Africa and one of his articles was awarded as best article of the year in the monthly publication of the South African Grain Organization for 2001.
